WU PLANS TO PUT SOLDIERS TO BUILDING HIGHWAYS

At Work, They Will Not Return To Banditry

HAS BIG PROGRAM

Would Abolish Tuchuns, Improve Finances

BY JABIN HSU

Special Representative, the China Press.

Paotingfu, June 2.—A concrete plan for the reunification of the nation was outlined by General Wu Pei-fu this morning in an interview granted at his office occupying the Kuan Yuan, the palatial residence of General Tsao Kun. The General wore a suit of modest looking calico cotton socks and a pair of black felt slippers.

Had it not been for the announcement made by the attendants in smart military uniform, I would not have recognised him as China's man of the hour—the general who sent one hundred thousand well-equipped Fengtien troops to the wall and the figure upon whom the eyes of the world are being centered. Alert in his motion and courteous in his speech, he apologised for his unceremonious appearance and explained that he did not go to bed until 3 o'clock this morning. It was then 8:15.

In a Shantung accent, General Wu spoke rapidly but concisely. He first inquired about opinion in Shanghai and other Southern cities regarding his recent activities and expressed appreciation of the attitude of THE CHINA PRESS in the internecine war. When asked of his plan for the unification of the country, General Wu pointed out that the measure must be carried out step by step.

FIRST OBSTACLE

"With President Hsu out of the way," he said, "the first difficulty is therefore eliminated. The authorities in the various provinces will send out a circular telegram inviting General Li Yuan-hung to come back to office. The former president has also agreed to sacrifice his personal comfort, if it is the wish of the people that he should be restored to office. He will then reconvocate the old Parliament in Peking, where circumstances at present are most favorable for their functioning.

"Of course, being the highest institution expressive of the will of the public, it is not for me to publicly suggest what the parliamentarians should do. But in view of the brief period that is left for them to work, perhaps it will be only possible for them to enact the Constitution which is most essential to the existence of good government of the nation. After this is done, Parliament may elect the vice-president, as provided by law.

"After the bitter experience we have had during the existence of our Republic in the hands of the militarists, it is imperative perhaps that the functions of the military and civil administrations should be separate. My personal idea is that the nation should be divided into several military areas in accordance with geographical conditions. These areas may be placed under the control of commanders-in-chief whose duties will be limited to military activities and who must be responsible to the Central Government, which alone shall finance, equip and supply them with arms. This arrangement will automatically abolish the Tuchunate system, which is causing ninty percent of the internal trouble.

TO BUILD ROADS

"The best method of curtailing the number of troops is to utilise them for railway and highway construction. Disbandment does not solve the question. You have to pay a large sum of money for their disbandment in the first place. Our financial stringency forbids us to resort to this means. Moreover, if the soldiers after disbandment fail to make a livelihood, they are liable to become bandits again. On the other hand, when they are taught to work, they are trained to enter a trade whereby they can support themselves for the rest of their lives."

While admitting the legality of the arrangement of and the plausibility of the plan, I asked whether the Southwest and Manchuria would continue to remain

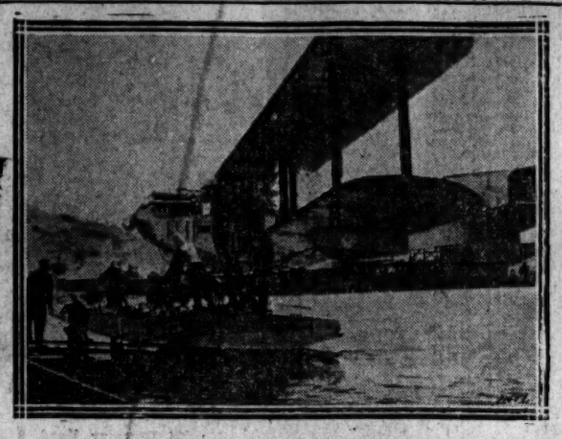
End Transoceanic Air Flight



THE two Portuguese airmen, Naval Captains Cabral and Coutinho, who started from Lisbon to Rio de Janeiro, and who met with a mishap at St. Paul's Rock, near the Equator, 1,600 miles from their destination, have now completed their journey, using a second machine which the Portuguese Government rushed to them by cruiser. Upper picture shows hydroairplane being hauled ashore at St. Vincent on one leg of the flight, while lower shows children excitedly watching its arrival at St. Vincent.

PORTUGUESE FLIERS REACH BRAZILIAN COAST

Trans-Atlantic Flight Completed By Lisbon Officers

(Reuter's Service)

Pernambuco, June 5.—The Portuguese aviators have arrived here safely, thus competing their trans-Atlantic flight.

(Reuter's Service)

London, June 6.—A far-reaching step in the history of aeronautics has been registered by the complete success of the tests of the British Brennan helicopter. The work at South Farnborough has been carried on with very great secrecy, paralleled only in the case of the invention of the tanks. The machine will be invaluable from a military point of view as it is able to hover, stationary and almost invisibly. It will also render unnecessary big making-off grounds.

The Air Ministry is now unlikely to pursue its proposal to offer a prize of £50,000 for a helicopter fulfilling the conditions published in January.

British Cruiser To China Station Is To Be Relieved

(Reuter's Service)

London, June 6.—The light-cruiser Despatch has been commissioned for trials by Captain Robert Hamilton, after which she will relieve the Curlew on the China Station. Her sister-ship, H. M. S. Diomede, is also preparing for service in China.

European Mails Scheduled Today

Mails to be dispatched on the French mail liner Angers for European ports will close at the British Post Office this afternoon. Ordinary mail will close at 5:30 p.m. and registered at 5 p.m. The vessel will sail for Marseilles at 9 a.m. tomorrow, the tender Whangpoo with outgoing passengers leaving the French mail jetty at 9 o'clock tonight. Heavy baggage should be delivered at the company's godown before noon.

Mail from Europe is due today on the P. and O. liner Kashmir. The Kashmir sailed from London on April 28. It will dock at the Shanghai and Hongkew Wharf about noon.

EXPORTS FROM CHINA TO U. S. PASS IMPORTS

Trade From Here Takes Big Leap Forward During Month Of April

American exports to China during the month of April totalled G.$9,300,000 and imports from China to the United States during the month were valued at G.$10,400,000, according to a cablegram received yesterday by the American Commercial Attache here from the Bureau of Foreign and Domestic Commerce, Washington.

The message read:

"April exports to China G.$9,300,000. Imports G.$10,400,000. Freight rates lowered ten percent. Railroad wages cut twelve percent, both effective July 1. Steel production increasing. Prices manufactured goods decreasing. Raw materials increasing."

American exports to China during March of this year were G.$9,500,000 and imports from China G.$8,500,000. During April, imports increased by G.$1,900,000 or 22.34 percent, and exports showed a slight decrease of G.$200,000 or 2.10 percent.

Complete figures for the past three months show:

	Exports from U. S. A. to China
1922	
February	G.$7,400,000
March	9,500,000
April	9,300,000
Total	G.$26,200,000
	Imports from China to U. S. A.
1922	
February	G.$8,300,000
March	8,500,000
April	10,400,000
Total	G.$27,200,000

Inspector Young, who has been at Gordon Road station, has been assigned to Central Station to fill the vacancy occasioned by Superintendent Vaughn's transfer. Inspector A. H. Aires, who has been at Central Station, has been assigned to the Gordon Road Station to take over Inspector Young's duties.

Yokohama Specie Bank Victimised

(Reuter's Pacific Service)

Hangkong, June 6.—A mysterious robbery took place during the holidays in which the Yokohama Specie Bank was victimised to the extent of $400,000 in bank-notes. It is presumed that the Bank's safe was opened by a duplicate key as the strong-room and safe are intact. The police are investigating. No arrests have been made.

U. S. Steel Merger Is To Be Attacked

Tokio, June 5.—The Katakura Silk Filature near Hachioji has been destroyed by fire. The loss of the buildings and cocoons is estimated at Y.1,000,000.

Latest For The New York Police

A motorcycle sidecar, equipped with radio telephone receiving apparatus and a newly invented police automatic rifle, weighing only seven pounds and firing 120 shots a minute, is the latest for the New York police. The rifle is the invention of General John T. Thompson, retired army officer and has been tried out successfully before army and police officials.

Kiddies To Have Big Part In Big Doings On Fourth

In line with the general purpose to give to American kiddies in Shanghai a bigger share than they have had hitherto in the celebration of the Fourth of July, it was planned yesterday at a meeting of the committee which is arranging the celebration to introduce several entirely new features for the observance of the American National Holiday.

While arrangements have not yet definitely been made the intention that has been set in motion is to have a flag raising ceremony as the opening event of the day at the Consulate and as a detail of this, children who actively take part may be in costume. In addition to the flag raising ceremony, a new departure planned for the day will be a special entertainment designed to be of interest both to the young people and their elders that is to follow the baseball game in the afternoon.

Yesterday's meeting of representatives of various American organisations who with Mr. E. S. Cunningham, American Consul-General, comprise the committee arranging for the observance of The Fourth, was held at Mr. Cunningham's residence. Costs for this year's celebration are to be covered by a fund raised by subscription among American residents and interests and in this connection. Mr. V. G. Lyman, who is piloting financial arrangements, reported that thirteen hundred circulars setting forth needs had been issued and that returns from them were of a nature to insure that all financial needs will be met.

In general, no particular changes of program for the day have been made. It has been deemed advisable to make the customary reception at the residence of the Consul-General entirely official in character—a function at which officials of other nationalities and Chinese dignitaries will be received. As means are lacking to provide for even a small proportion of the American community which will have all opportunity to participate in other events of the day it is proposed that the official reception at the Consulate will be by invitation. Following the Consulate reception the American Club is to hold open house for guests of members through the noon hour after which the baseball game will be played in the afternoon.

Beginning at 5 o'clock the lawn party preceded by a variety program and an exhibition of daylight fireworks will be held and this, according to present plans, will end with a basket supper. Details in connection with the lawn party have not yet been worked out, but it is believed that it will be possible to announce a full program in the course of the next several days.

American School Pupils To Present Play At Olympic

Students of the American School will present the operetta "Bulbul" at 5:30 o'clock today at the Olympic Theater, as part of the school commencement week exercises. The play is under the direction of Miss Bernice L. Austin, of the American School faculty, and at a preliminary hearing before the Rotary Club last week, the youthful actors showed up splendidly.

Empress Of Canada To Arrive Friday

The new Canadian Pacific Steamships liner Empress of Canada will arrive off Woosung from Hongkong at about 10:30 a.m. Friday according to information received yesterday by the local offices of the company. The liner will sail the same evening at 8 o'clock for Vancouver via Yokohama on its maiden voyage across the Pacific.

The tender Alexandra with incoming passengers from the Empress of Canada is expected at the Customs Jetty at 1 p.m. Outgoing passengers will leave the jetty on the same tender at 5 p.m. Heavy baggage should be deposited at the company's godown in Szechuen Road, behind the Chinese postoffice by 3 p.m. Thursday. Hand baggage should be on board the tender by 4:45 p.m. Friday.

B.W.A. Garden Section Has Meeting Today

The first of two meetings of the gardening section of the British Women's Association scheduled for this week will be held today in the garden of Mr. Slowe at 25 Yu Yuen Road at 5 o'clock. On Friday a meeting will be held at the home of Mrs. Craddock, 76 Route de Say Zoong at 5 o'clock in the afternoon.

Peking "U" Plans To Compile History

(Chung Mei Service)

Peking, May 29.—It is reported that the Ministry of Education has granted the request of the Peking University to obtain the filed cases and memorials of the late years of the Ming dynasty and the whole period of the Chin dynasty for the purpose of compiling a recent history of China.

Instructions have been given by the Ministry to the History Museum to co-operate with the University in this matter. Work will be started this summer and lists of contents of all those cases and memorials, will be compiled and published accordingly. These memorials and others will have to be returned to the Museum as soon as the work is accomplished, so that none will be lost. The University is planning to entrust the History department with the work of making a list of the necessary contents.

The students will be asked to work in order to avail themselves of this opportunity to help.

Later on the University will employ specialists to make use of those contents for the compilation of special books.

NO CABINET POST FOR WU; BELONGS WITH ARMY, HE SAYS

Will Not Accept, Even To Induce Li To Take Office

SUN'S MEN ACTIVE

Old Parliamentarians Already At Odds, Peking Hears

BY JOSEF W. HALL

(Staff Correspondent)

Peking, June 6.—Wu Pei-fu definitely refuses to undertake the ministry of war or any other cabinet position, even should Li Yuan-hung make this a condition of his acceptance of the presidency. Wu says his place is not in the political atmosphere of Peking, but out with the troops, where he can hold control and maintain discipline.

However, he pledges to give his unequivocal support and allegiance and subservience to Li if the latter will assume the presidency and says that a message from Li at any time will bring his entire strength to the aid of the government.

It is believed here that Hsu Shih-chang is trying to poison Li's mind, and that the Kuomintang party leaders are also telling him that his reassumption of the presidency would eventuate in a repetition of his former experience.

(Eastern News Agency)

Peking, June 6.—According to a telephone message from Tientsin published by a Chinese newspaper today, the number of M. P.'s of the Old Parliament, now in Tientsin, is in reality 163 in all, though 203 has been reported to ex-President Hsu Shih-chang. The newspaper says, "With this small number of the Members of Parliament, it is doubtful whether they will be able to be convened officially. Furthermore, the M. P.'s now in Tientsin are divided into two factions, one belonging to Mr. Wu Ching-lien, ex-Speaker of the House of Representatives, and the other to Mr. Wang Chia-hsiang, ex-President of the Senate.

SIGNS OF SPLIT

"These factions are quarreling with each other, thereby creating threatening signs of a split. According to original arrangements the M. P.'s in Peking and Tientsin were to be controlled by Mr. Wang Chia-hsiang and those in Shanghai and Canton by Mr. Wu Ching-lien. Owing to the fact, however, that some one has attempted to brew bad blood between Mr. Wang Chia-hsiang and General Wu Pei-fu, the former has lost the confidence of the latter with the consequence that the power to control the M. P.'s in Peking and Tientsin has passed from Mr. Wang Chia-hsiang to Mr. Wu Ching-lien."

It is reported in Chinese quarters here that M. P.'s of the Old Parliament now in Tientsin have of late received a telegram from their ex-colleagues in Canton, opposing the proposed reconvocation of the Old Parliament, on the ground that the Chihli faction intends only to satisfy its own ambition.

Moreover, one of the M. P.'s of the Old Parliament named Wang Pao-chen has published an article in which he accuses Messrs. Wang Chia-hsiang, ex-President of the Senate, and Wu Ching-lien, ex-Chairman of the House of Representatives, of having effected an agreement with Mr. Pien Shou-ching, Chairman of the Provincial Assembly of Chihli, to take advantage of the Parliament.

Canton, June 4.—It is authoritatively reported that General Wu Pei-fu has wired to General Chen Kuang-yuan, Tuchun of Kiangsi, ordering him to concentrate in Kianhsien for a time all the Northern troops stationed in the southern part of Kiangsi and to start the offensive in a large force against the Southern troops upon the arrival of the reinforcements from the North under the command of General Tsai Cheng-hsun, who is now in Wuhsueh.

TROOP MOVEMENTS

In consequence, the Southern troops are now hurriedly concentrating in the districts of Kanchow and Chung-i with a view to capturing Kianfu before the arrival of the Northern reinforcements under the command of General Tsai Cheng-hsun.

The Kiangsi troops, who have withdrawn from Kanchow, still are retreating northward and are strenuously strengthening defen-

sive works in the Liangkow region. From this fact, it appears that the retreat of the Kiangsi troops is due to telegraphic instruction from General Wu Pei-fu.

The Southern troops under the command of General Wang Ta-wei on May 30 proceeded to Shangyuhsien. Ningtunsien was easily captured on May 28 by a flying corps of the Southern army.

The Kiangsi troops under the command of General Chen Kuang-yuan, who have withdrawn from Kanchow, have now constructed a defensive position in Liangkow 120 li distant to the north of Kangchow.

The main force of the Kiangsi troops is still holding its own at a point not far from Kanchow and is assuming a threatening attitude. It may make a counter-attack upon the expeditionary forces.

Canton, June 5.—According to Dr. Sun Yat-sen, it is true that General Wu Pei-fu has of late proposed to effect a compromise between the North and the South on condition of the reconvocation of the Old Parliament. Dr. Sun further states that General Wu has been for the last few days earnestly asking for his approval of the latter's proposition through the medium of American missionaries and Chinese politicians belonging to the Chihli faction, but that since he (Dr. Sun) holds the belief that the foregoing is mere "tactics" on the part of General Wu Pei-fu he will further advance his anti-northern campaign as previously arranged until General Wu's sincerity is fully ascertained.

(Reuter's Pacific Service)

Peking, June 3.—Confirmation of the reports that the "punitive expedition" from Canton was advancing into Kiangsi has been received. It appears that General Li Lieh-chun's troops have taken Kanchow and Wanan and are now marching on Kian, which latter city is little over a hundred miles from Manchang.

Their rapid progress is explained by the fact that the troops of General Chen Kuang-yuan refused to fight because their pay was in arrears.

The Commander-in-Chief of the Kiangsi reinforcements, General Ts'ai Chien-hsun, is still at Hankow and is reported to have asked for $350,000 to finance his operations.

(Kuo Wen News Agency)

Peking, June 5.—The report that Kanchow, Kiangsi, has been captured by the southern forces is confirmed by reports received by the Legations. More than 4,000 Kiangsi troops have surrendered and the last news heard from Tuchun Chen Kuang-yuan was to the effect that he was preparing to flee.

(Reuter Pacific Service)

Peking, June 3.—Mr. Shiao Yung-Shih, First Secretary of Legation in Sweden, has been recalled for service at the Waichiaopu.

Ministers Confer With Wu On Plans To Cut Soldiery

(Eastern News Agency)

Peking, June 6.—According to an influential official in the Government here, Mr. Tung Kang, Minister of Finance, Mr. Kao En-hung, Minister of Communications, and a representative of General Li Yuan-hung left here for Paotingfu this morning in order to confer with General Wu Pei-fu over measures for the curtailment of soldiery and the improvement of finances. It is expected that they will then proceed to Tientsin along with General Wu Pei-fu tomorrow and will come to Peking together with General Li Yuan-hung.

While Tsao Kun is insisting upon the formation by General Wang Shih-chen of the succeeding Cabinet, General Li Yuan-hung has a desire to recommend Mr. Chou Shu-mu as Premier of a new Cabinet. General Wu Pei-fu is looking with favor on the assertion of Marshal Tsao Kun. In the meantime, a section of M.P.'s of the Old Parliament is desirous to have either Chang Shao-tseng or Sun Hung-yi form a new Cabinet. General Wu, however, has an intention first to bring General Li Yuan-hung to Peking from Tientsin, leaving the Cabinet question unsettled for the present.

Shantung Wants New Parliament

(China Mei Service)

Peking, May 29.—The Shantung Provincial Assembly has made a strong protest against the reconvocation of the Old Parliament and has sent telegrams to that effect to Generals Wu and Tsao, according to reports received today. Three reasons are advanced for this action.

First, reconvocation of the Old Parliament will lead to many complications in foreign relations, for the foreign treaties will not be effective, as no government will be considered legal since the dissolution of the Old Parliament. Second, that in the Southern Government many have been put in as members of the Old Parliament while the properly elected members have been excluded. Thus it is feared that many difficulties will arise when the Old Parliament is reconvoked such as whether to regard these substitutes original or lawful members of the parliament. Third, that this reconvocation will cause difficulty as respects the term of office of the Parliament member, since they have actually been elected many years ago which is in contradiction to the constitution of the Republic which fixes the parliamentary term at three years.

This assembly therefore proposes an election of a new parliament. It is said that eleven provinces have elected their representatives, and that it will not take any more time for the rest of the provinces to elect theirs. This will preserve the election rights of each provinces infact. It is hoped that Wu will give some consideration to their proposal.

Li Reveals He Is Astute Politician

Tientsin, June 6.—Li Yuan-hung is showing himself a much more mature statesman than those who with the best intentions have endeavored to stampede him into office but who lack the political perspective of the former President.

Li is preparing a definite program which he is expected to announce to the country tomorrow and the reaction from the announcement will determine whether or not he will resume the presidency.

It is said that Wu Pei-fu is remaining in the background and allowing Li to draft his own program so that he cannot be accused of using his military prestige to enforce his political views upon the country.

Li's independent announcement is regarded as a much better solution of the political problem than the proposed visit of Wu Pei-fu to Tientsin and having Li and Wu join in a joint proclamation. Neither Li nor Wu thought such a move desirable.

General Ho Feng-lin, Military Governor of Sungkiang and Shanghai, sent a telegram to Wu Pei-fu protesting against what he said was Wu's forcing president Hsu's resignation and the assumption of the presidency by Li Yuan-hung.

General Ho also wired Li Yuan-hung asking him not to accept the proffered office.

Several prominent organisations in Shanghai also have wired Wu and Li suggesting that someone other than Li be selected for the office. The National Organisations Union and the Hupeh Reconstruction Society wired in that mood also, according to the Chinese press.

Wu Ting-fang As Premier, Suggestion

(Chung Mei Service)

Peking, June 3.—Events continue to tumble one upon the other rapidly as the reunification of China under a new president approaches a reality after the weeks of endless conferences. The cabinet situation is again completely changed. It appears unlikely that Wang Shih-chen will take the post.

It is now suggested that Wu Ting-fang should be premier, thereby bringing together the North and the South. The logic of this choice is apparent. Wu Ting-fang was premier when Li Yuan-hung was forced out of the presidency and was never formally relieved of his post by the President.

Therefore if Li has become president again by virtue of his former rights, Wu Ting-fang would naturally be premier. This turn of events has startled the Northern politicians who were hungrily watching for the Chihli plums into a state of virtual panic. The situation is fraught with tremendous possibilities.

Japan To Explain Stand On China

(Eastern News Agency)

Tokio, June 4.—In reference to the policy of the Japanese Government towards China, the Tokio Asahi today writes to the following effect:—

"While the Japanese Government takes no exception in principle to giving advice to the Chinese Government to carry through the curtailment of soldiery, at the same time it perceives that it is useless to do so in view of the present chaotic political situation in China and consider it advisable to watch the transition for the time being. The Japanese Government is said to have given instructions to Mr. Obata, Japanese Minister to Peking, to that effect.

"The Government has come to the conclusion, it is also reported, to make a full explanation to the Powers concerned as to the fixed policy of the Japanese Government towards China, to endeavor for the sake of public peace and unification of China, to agree to the proposal on the curtailment of soldiery and the abolition of Tuchunates in China, to make clear a resolution to act in concert with the Powers, and to respect every decision made at the Washington Conference, with the object of helping China to effect her full development in the future. That the Japanese Government has decided to act in concert with the Powers on the above principles indicates the fact that the policy of Japan towards China is inclined to take a turn from the negative policy, which the Japanese Government has hitherto observed.

Many Lose Jobs In Salt Administration

(Reuter's Pacific Service)

Peking, June 3.—It is reported that a large number of employees of the Salt Administration are being dismissed in accordance with the policy of the new Minister of Finance to dispense with all officials whose posts are not absolutely necessary.

The Ministry of Finance is being guarded today by gendarmerie, owing to reports that dismissed employees might make a demonstration.

Peking, June 3.—In communicating to Mr. Hsu Shih-jang the fact that the posts of Director-General of the Tientsin-Pukow and Hsiangyangchow-Pukow Railways had been abolished, the Ministry of Communications stated that hereafter the duties appertaining to these posts would be carried out by the Chief of the Railway Department.

Peking, June 3.—The Ministry of Communications has informed Mr. Wang Ching-hsien, Chief of the Changchow-Amoy Railway Construction Bureau, that no funds are available for the extension of the railway and that the Bureau should be converted into a department and the seal of the Bureau sent back to Peking.

Parliamentarians Quarreling, Report

(Reuter's Pacific Service)

Peking, June 6.—While, it is stated, the anti-Northern expedition is regarded in Canton as hopeless, it appears to be progressing, it is reported, owing to disaffection among the population of Kiangsi. Shangyuhsien is reported to have been captured and the Kiangsi troops to be retreating from Kanchow and entrenching near Liangkou. It is stated that this was ordered by General Wu Pei-fu, who instructed their retirement to Kianfu, where they are to await reinforcements.

General Kao Shih-ping's following in the Chinese Eastern Railway zone have met with reverses and have retreated to a point fifty miles east of Suifenho. Their defeat is attributed to shortage of ammunition.

A message from Shanhaikuan states that the Fengtien positions were bombed by a Chihli aeroplane yesterday. It is believed that extensive hostilities are imminent.

As the result of an order issued yesterday, over seventy minor officials of the Ministry of Justice were dismissed.

Members of the staff of the Ministry of the Interior who were on strike have now resumed work.

General Chang Tso-lin is reported to have assumed the title of Commander-in-Chief of the Manchurian Defence Force.

TOKIO CABINET MEMBERS OFFER TO QUIT POSTS

Premier Acts After Failure Of Reconstruction Plan

(Reuter's Pacific Service)

Tokio, June 6.—The Premier went to the Palace this morning and tendered the resignations of himself and his colleagues but was ordered to retain office for the present.

The decision to resign was made at this morning's Council when the Premier invited opinions on the proposed reconstruction of the Cabinet but as the Ministers of Education and Railways still held out against this, the Premier announced his decision to give up office to which all the Ministers agreed.

Tokio, June 6.—The Cabinet has decided to tender its resignation.

(Eastern News Agency)

Tokio, June 6.—At the Cabinet meeting held this morning at 11 o'clock, it was officially decided to effect the resignation of the whole Cabinet under Premier Takahashi.

Tokio, June 6.—Premier Takahashi collected the resignations of all Cabinet Ministers and repaired to the Imperial Palace at 11.30 a.m. and presented them to the Crown Prince Regent.

A conclave of five Cabinet Ministers who belong to the Seiyukai Party was held at the official residence of Premier Takahashi this afternoon, lasting till 8 o'clock p.m. It is reliably reported that Premier Takahashi, among other things, stated he was of opinion that the best policy to insure the stability of the political situation under present circumstances was to formulate a new policy and that if this could not be done there was no alternative for the Cabinet but to resign in a body.

Mr. Motoda, Minister of Railways, then declared there was no reason why the policy of the Government should be changed, and insisted upon the maintenance of the status quo. Then both Mr. Yamamoto, Minister of Agriculture and Commerce, and Mr. Noda, Minister of Communications, announced their intention to resign, provided, they said, the Premier's determination was exactly as he declared, and requested Premier Takahashi to effect the projected reconstruction of the Cabinet by their resignation.

The Premier, however, took exception to this demand and on the contrary frankly expressed his own intention to resign.

Finally, Mr. Tokonami, Minister of Home Affairs, made a motion to the effect that as it was very difficult to maintain the status quo in view of the present critical state of affairs the Cabinet had no alternative but to resign en bloc.

Cut In Beggar's Allowance Traps Alleged Robbers

Had the three gentlemen who happened in as guests at the shack which she occupied not attempted to ingratiate themselves by giving her an allowance of fifty cents daily on the promise that she would not leave the place, or had the beggar woman who was the recipient of these favors not become aggrieved by their announcement that they intended to cut down this allowance, the three, who are alleged to be robbers, might still be at liberty.

As it is, they are being held on a charge of having robbed the Tai Shing Money Exchange Shop in Nantao, following information which the beggar woman gave the Shanghai Woosung constabulary and their subsequent arrest.

The trio, according to the story of the beggar woman, came to the house where she was staying, and impressed on her the need for great secrecy. They asked her not to go on the streets and pursue her usual vocation, offering as a deterrent an allowance of fifty cents daily. She acceded, until they cut her allowance. Then she reported them to the police.

Acid Thrown In Burgomaster's Face

(Reuter's Service)

Berlin, June 6.—It is reported from Cassel that a youth threw a toy balloon, believed to contain prussic acid, in the face of the Burgomaster, Herr Scheidemann, the well-known Socialist and ex-Chancellor, and ran off.

Herr Scheidemann fired two shots at the fugitive without result and then became unconscious. He remained unconscious for some hours but is otherwise uninjured.

Waterfront Workers Demanding More Pay

According to terms of a circular in Chinese that has been issued by waterfront workers here seeking higher wages and desiring to organise, a new labor disturbance is in prospect. The workers affected are the laodahs, engineers and cooks employed on the smaller craft on the Whangpoo.

It has not been disclosed from what source the circular in question has been issued, but it is sponsored by a committee said to have been chosen from a number of the men and calls for a general walk-out unless employers see fit to grant demands that are set forth.

Number one laodahs and engineers at present receive $12 a month, second rate laodahs and engineers from $6 to $8 and cooks about the same wage. The demands being made include increases of 40 percent for the most highly paid workers, 60 percent for the next grade and 80 percent for those lowest paid.

It is reported that certain employers already have granted increases to forestall stoppage of work.

WU SENDS ENVOY TO URGE LI TO ASSUME OFFICE

Chihli Leader Under Heavy Strain, Breakdown Threatens

(By a Staff Correspondent)

Paotingfu, June 4.—Definite news of the assumption of President Li Yuan-hung of presidential responsibilities will come as a great relief to the authorities here. Having forced one president out of office they will be placed in a false position should any hitch occur in the provision of a successor. General Wu Pei-fu is visibly under great strain, which, it would seem to his intimates, must be lifted soon if a nervous breakdown is to be averted.

General Hsiung Ping-chi, Chief of Staff to Tsao Kun and General Li Chi-chen, Chief of Staff to Wu Pei-fu, have gone to Tientsin to assure President Li that the support of the Paoting authorities is unmixed with ulterior motives and if he can be persuaded to step out to escort Li to the President's palace in Peking. President Li is known throughout China as a man who characteristically yields to pressure and it is believed that these two capable staff officers will succeed in landing him safely in the Yin Tai Gardens.

In an interview given several days ago in Tientsin, President Li stated that he had no fears for himself and referred to his record as a military man and revolutionary leader in evidence of his personal courage. His fears, he stated, were all for his country. It would be useless for him to come forward to resume office if circumstances attending the change should arouse opposition which would soon force him out the second time or throw the country again into chaos. Also, he would be gravely offending his country should he succeed in reuniting it for a year and a half only to have it again divided at the end of that time by the attempts of some individual not agreeable to a section of the country to succeed him in the Presidential office.

It has been pointed out to General Li that it is his duty to hearken to the present call of his country; and that what is to occur after he has filled out his term must be left to God, the will of the people and the choice of Parliament.

It is planned that General Li, immediately upon assumption of office, shall issue a mandate re-summoning his old parliament. General Li has intimated that nothing could give him greater pleasure than the re-convoking of the parliament which, for the sake of saving bloodshed in the capital, he prorogued at the dictum of the Tuchuns in 1916.

Invents Cold Light Which May Revolutionise Cinematography

A HEATLESS electric light has been perfected by M. Dussaud, noted French scientist. The Dussaud lamp, consisting of a number of lamps in one, remains absolutely cold; yet the light produced is strong enough to replace an arc lamp and allow a colored projection of 2x2 yards. It is thought the lamp will solve the problem of color cinematography, be of unlimited value for use about inflammable materials, and also be useful in surgery, "flash light" photography, optical telegraphy and in many other directions.

Wholly elaborate and detailed plans have been outlined by workers of the Navy Y.M.C.A. for this summer's undertaking at Chefoo. These were formulated one night this week at a dinner that was given by Mr. and Mrs. Paul W. Brown for the ladies of the Navy Y.M.C.A. Central Committee who are: Mrs. John W. Nichols, Miss Mildred Crane, Miss Hilda Murray, Miss Dorothy Owen and Miss Frances Taylor. The young ladies who are giving their vacation time this summer to the work of the Navy Y.M.C.A. at Chefoo are Miss Eleanor Kitchen, Miss Emma Gustafson, Miss Harriet Reitwo'd, Miss Marie Speidel and Mrs. Allison Hayes. Mr. Erston C. Miller and Mr. Joseph O. Van Hook, instructors at the American School, also are to join the Navy 'Y' staff at Chefoo. The young ladies who will be on the Navy "Y" staff at Chefoo will wear attractive white uniforms with the Y.M.C.A. emblem on the sleeve and white straw hats with wide upturned brims. These young women have previously done welfare work for the Y. M. C. A. and the Y. W. C.A. and will be valuable workers in the entertainment of sailors at the Chefoo summer camp.

Wu Plans To Put Soldiers To Work

(Continued from Page 1)

aloof from the union. Here the marshal's eyes sparkled and said: "The Southwest has been calling itself the Constitutionalists' Government, aiming at the protection of the union and carrying out of the administrative functions in strict accordance with law. I am sure our plan coincides with their views. However, if there is any opposition to this plan, such should be considered detrimental to our national interest and enemy of the Republic. Armed suppression will then be the order of the day."

General Wu spoke with firm determination as he uttered the last words. Evidently, he had the Manchuria provinces in mind when his words were delivered.

Notwithstanding his determined utterance on things military, General Wu inquired freely on political matters, realising his own shortcoming when it comes to politics and world problems. He asked many questions about the Washington Conference which seemed to interest him immensely. He demonstrated much interest in some of the leading industrial magnates in Shanghai, telling me briefly his own plans for the conservancy of the Yellow River, which he desires to devote some of his attention to when the military situation improves in the valley.

The redemption of the Kiaochow-Tsinan Railway was a subject which occupies much of the General's time. He believes it is the opportunity of his life to give assistance to this work as it will demonstrate to the world that we Chinese mean what we say in business as well as in international dealings.

British Troops Invade Free State

(Reuter's Service)

London, June 6.—The clearing out of the Sinn Fein invaders in the Pettigo-Belleck salient is proceeding satisfactorily. The British column includes the Lincolnshire and North Staffordshire Regiments. It is in complete control of the Pettigo area which embraces a mile of Free State territory, where it is in position to prevent harassing tactics on the part of the Sinn Fein forces.

London, June 3.—After an hour's conference at Dublin, Mr. Michael Collins and Mr. De Valera issued an appeal deprecating electoral contests which are bound to engender bitterness and discord at a time when unity, which the Collins and De Valera pact is intended to promote, is essential.

They are evidently surprised and alarmed at the growing number of candidates nominated, in opposition to their nominees, by the Farmers Union, Labor Party and other organisations.

Over forty such candidates have now been selected necessitating contests in twenty out of twenty-seven constituencies.

Why? Because in the Summer your system is at its feeblest, you are worn out—exhausted by the debilitating heat. Your forces lack the strength to throw out the cold-germs.

SCOTT'S Emulsion

Cures because it gets straight at the cause of the trouble. It acts through the blood—cleanses, throws out the germs. It builds up, strengthens, the entire system. Gives new life. Creates new nerve tissue. When your forces are strong the cold germs must go.

But you must get Scott's Emulsion—Scott's, the proved food-medicine with 48 years' reputation behind it. No substitute will do you near so much good.

Huddersfield Town Wins English Football Cup Over Preston, 1 To Nil

Penalty Goal In Middle Of Second Half Decides The Big Honor

London, April 29.—The ground of the Chelsea Football Club at Stamford Bridge was the scene, this afternoon, for the third time since the war, of the final tie of the Football Association Challenge Cup. Preston North End and Huddersfield were the opposing elevens. Huddersfield won, 1-0.

The traditions of the two clubs presented a marked difference, for while the history of Preston North End went right back to the early days of professional Association football, Huddersfield Town was an organisation of quite young growth.

It was 33 years ago—on the second occasion of their reaching the final—that Preston North End won the Cup for the only time in their career. That was the last time they appeared in the concluding stage.

Brief though their existence has been, Huddersfield Town were making their second attempt in the final tie in two years, for it will be remembered that in 1920 they were defeated by Aston Villa after an extra half-hour.

The records of the clubs to the final stage are:—

Preston North End

1st Round.—Beat Wolverhampton W. ..... 3—0
2nd Round.—Beat Newcastle United ..... 3—1
3rd Round.—Drew with Barnsley ..... 1—1

4th Round.—Beat Millwall ..... 3—0
Semi-final.—Beat Notts C. (at Burnley) ..... 3—1

Happily both teams were at full strength.

Preston North End: J. F. Mitchell; Hamilton, Doolan; Duxbury, McCall, Williamson; Rawlings, Jefferis, Roberts, Woodhouse, Quinn.

Huddersfield Town: Mutch; Wood, Wadsworth; Slade, Wilson, Watson; Richardson, Mann, Islip, Stephenson, Smith (W. H.).

Referee: Mr. J. W. D. Fowler, Sunderland.

Play was even until well into the second half when Huddersfield attacking again after some clever passes in which they showed, as always, a better understanding, and after 20 minutes Huddersfield took the lead. Smith ran down and tricked Hamilton, who, however, brought him down badly.

It was a foul, but it took place at least a yard outside the penalty line, Hamilton stopping dead on the spot and not moving.

The referee, however, awarded Huddersfield a penalty kick, the Preston players being aghast at the decision.

There was a little delay, and then Smith took the kick and scored.

The cup and medals were presented to the teams after the match by the Duke of York. The official attendance was 53,710, the gate receipts being £10,551 6s. 6d.

SAYS 'BUGS' *Baer:*

GINK FOWLER A LAUGHING LOSER

He Paid With A Smile And Collected With A Frown; Borrowed With A Grin

BY "BUGS" BAER

My Dear:

The reason why the unworthy public constantly belittles Gink's prowess as an umpire is something I can't understand. In a game between Roughtown and West Horror, the score was 48 to 50 in favor of Roughtown. West Horror was batting in the ninth. The bases were all in the hands of the speculators. Three on and two down. The Glutt walked the next batter and Gink called him out. Bases full and no place to put him. This slab of strategy saved the game for Roughtown. It pains me to tell you that Gink is now convalescing in the Roughtown junk yard.

Deleriously yours,
FRED YEDINACK,
New York.

The standing of the teams in the Boots League is now very eccentric.

There is Roughtown leading by a bee's knee. Next comes Roughtown again. After that is the charming little town of West Horror, Roughtown's only rival in vital statistics.

When the Amalgamated Pallbearers decided to hold their annual laughing convention there was much spirited bidding between the towns in the Boots League. Badburgh, Axadent, Miseryville and Holacaust all wanted the convention. Roughtown got it on past performances.

Fowler's activities and public efforts were not confined to fighting and umpiring. He was stroke oar in all the bromstick battles and also coached the safecrackers team.

Field Day in Roughtown was a great event. First they tore off the municipal hanging sprints. Gink started scratch and won by a neck.

Then the keg swizzlers would start to swizzle. This was a relay race. Distance, fifty gallons. Then everybody would have their skulls examined by doctors. Result, a hollow victory for Gink.

The running, standing narrow jump went to The Glutt by default. The swimming hurdles were taken by Gink. In the aquatic race, it was discovered that Gink had his shoes loaded with lead which gave him an unfair disadvantage.

The reason why West Horror had fifty runs was that Roughtown was compelled to spot their enemies fifty runs.

Roughtown was also forced to play fifteen or no count. If they didn't score fifteen runs an inning, they were marked up for a zero.

Still, in spite of these inherited blemishes, Roughtown was still up there struggling for last place.

Shanghai Plays Flotilla Nine At 4:45 O'clock This Afternoon; Opens Season

Local Management Plans For Long Schedule Of Real Baseball

Shanghai will get down to real baseball this afternoon with the opening match for 1922 against the navy. The game will mark the second official match of the season. Only the game last Saturday against Nanking language school men antedates today's set-to in the averages. The arrival of the flotilla has started serious baseball.

The schedule for the immediate future includes a game this afternoon commencing at 4:45 o'clock against the 37th Division of the torpedo flotilla, one against the 38th Division for Saturday at 3:30 p.m. and another contest for Sunday at 3:30 p.m. against the 37th. The games are expected to be the first of a long series.

The torpedo flotilla has 18 boats and several good baseball teams in its make-up. The Chandler is, perhaps, the best known among Shanghai sportsmen. There are also however the Tracy, the Hovey and others well known here. The fleet expects to remain in Shanghai until the 20th of June. There is good prospect for a long schedule.

The American flagship Huron, and the Buffalo, the mother ship of the torpedo boats, are due here on Monday. The Buffalo is expected to leave with the flotilla on the 20th for target practice at Chefoo, but the Huron it is understood will stay over for two months or more. The arrival of the flagship and the smaller boats gives local baseball the needed spring start.

Manager Gallop last night said that he would have a definite program of baseball arranged before Tuesday morning. With the arrival of the Huron and the Buffalo, a league schedule will be arranged, with games to be played perhaps every day.

Salt Surplus Needed For Internal Loans, Says Sir Francis Aglen

Consolidated Loan Service Endangered Unless Payments Are Resumed, Customs Chief Declares In Letter

That the sinking fund for the Consolidated National Loan Service is exhausted and that there will be no money for interest and amortisation of China's internal loans unless the practice of releasing the salt surplus is resumed is revealed in recent correspondence between the Peking Bankers' Association and the Banks of China and Bank of Communications, and Sir Francis Aglen, Inspector General of Customs, which has been made public in Peking.

The matter was taken up by the bankers in a letter to the head of the customs. In replying to the specific questions put by the bankers, Sir Francis Aglen wrote:

"The Customs Revenue balances at the end of April amounted to Taels 4,000,000 or more, but this sum cannot be considered to be available for the Consolidated Loan Service for the following reasons: Owing to the factor of exchange, which cannot be estimated, and of revenue receipt, which can be estimated approximately on the basis of an average of past collections, any balance of revenue which may be in my hands at any time during the current year cannot be appropriated for the service of the Consolidated Debt without infringing the priority of the Foreign Loan and Indemnity Obligation. It is only at the end of the year, when all obligations having prior claims have been met or have been covered that the Customs Surplus becomes available for the Sinking Fund of the Consolidated Loans. A balance of Taels 4,000,000 at the end of April might quite possibly by the end of the year be reduced to nothing by a fall in exchange or a serious decrease in revenue.

"I was asked for my consent to the diversion of one month's salt surplus (referring to the diversion when $1,500,000 was used to pay the Metropolitan police of Peking during the civil strife in the vicinity of the capital), but I refused to give it. I informed the Ministry of Finance that it was not for me either to allow or to disallow the diversion of the salt quota assigned to the service of Consolidated Loans. I stated that I would accept no responsibility for salt quota until actually received by me. On the other hand, I undertook not to announce publicly the suspension of the Loan Service so long as I had in my hand funds sufficient to meet the interest coupon dues.

"Naturally, the non-receipt of $1,500,000 was highly prejudicial to the loans. I have received assurances from the Ministry of Finance that beginning from June, the payment will be resumed regularly as usual.

"I have explained very clearly the financial position of the Consolidated Loan Service in my letter of April 5 to the Bankers' Association, to which I invite your renewed attention. Since that letter, I have received the salt quota for April, which enables me to pay the interest coupons of $1,550,178.50 due on June 1. On payment of the coupon and allowing cover for interest coupons due and redeemed bonds which have not been presented, the sinking fund will be exhausted, and unless the Salt Quota is resumed and paid regularly there will be funds neither for interest nor amortisation."

Mennonites In Religious Migration

Mennonites in migration

ONE of the greatest religious migrations since the days of Moses now is in progress. From Canada to their new homes in Mexico 20,000 members of the Mennonite faith are traveling. Members of the sect were ordered by their bishops to sell their Canadian holdings, after the Mennonite leaders and the Government had come to legal blows. This photo shows a group of the tribe and typifies the majority.

Moscow O.K's. Work Of Delegates To Conference

(Rosta News Agency)

Moscow, May 29.—The third session of the All-Russian Central Executive Committee was opened by Mr. Joffe's report on the Genoa conference, after which by a unanimously accepted resolution the Executive Committee expressed its approval of the policy followed by the Russian representatives at Genoa and instructed the Executive Committee itself, the Council of People's Commissar and the Commissariat of Foreign Affairs to accept as sample and foundation the treaty with Germany while concluding treaties with separate states, allowing some differences from it in rare cases and when the treaties under negotiation offer special advantages to Soviet Russia. Mr. Joffe's report is summarised as follows:

"The states which participated in the Genoa conference were, from its very beginning, divided into two unequal parts: 35 European Powers on one side and five Power-Conquerors on the other. The latter arrived at the conference with a preliminarily elaborated memorandum and assumed at once a commanding position. Against this state of affairs not only Russia and Germany, but also the so-called Little Entente protested.

"The conference since its first meetings disclosed the inward dissentions among the commanding Powers, despite the concerted actions of the Entente. Later on this dissention became more and more obvious, the gap between the Entente and the group of small Powers growing wider continually. Germany, which before in Berlin had been hesitating to sign the agreement with Russia, decided to sign it in Genoa.

"The Genoa conference failed in the way of achieving a complete understanding among the Powers: it decidedly buried the League of Nations, morally disintegrated the Entente, and even the Little Entente which hitherto had obediently followed all prescriptions of the Big Entente now regarded her with a reluctant and almost hostile attitude.

"Europe has become aware of the fact that Russia is the only Power sincerely striving for peace, while the Entente, particularly France, is the mailed fist endangering European welfare. Europe could not help seeing the true face of Russia at Genoa and Russia was the only state bold enough to oppose the Entente openly and still maintain her position, yielding in nothing which could curtail her sovereignty. This will be remembered in our history."

The Chairman of the All-Russian Central Executive Committee, at the concluding session on May 26, declared that the present session of the Central Executive Committee distinguished from its predecessors by departing from general directives to definite legislation. The duty of the Central Executive Committee now is not merely to imbue the masses with respect for law but also attract them to creative legislation.

Scout Camp Will Be Held Again At Kuling

The Officers of the Baden-Powell Boy Scout Association, encouraged by the success of the Kuling camp last year, will hold another camp at Kuling this season, during July and August.

Scoutmaster S. Hore, who was in charge last year, will conduct the camp again, assisted by Mr. Pringle. Other officers of the association will attend at intervals.

Although the site of the camp has not been selected yet, it is hoped that the camp occupied by the Scouts last year, on one of the highest parts of Kuling, will be available. The place is well sheltered, and has a supply of pure spring water. A British resident doctor is available.

The entire charge per scout for the two months will be $120, travelling expenses inclusive, but not including canteen charges. Each troop must supply patrol-tents, each to accommodate three to four scouts, and provided with fly-sheets and tent-boards, raised at least 4 inches from the ground. The troops should also bring spades and pickaxes for trench-digging. In addition every scout is advised to take a camp-bed, a good rain-coat, an overcoat, a sweater, three blankets or a sleeping-bag, two or three shirts of khaki drill, two or three shorts of same material, two or three pairs of stout leather boots, one pair rubber-soled shoes, good sun-hat, a cap, bathing costume, towels and soap, warm underwear, two or three pairs of thick cycling-stockings, knife, fork and spoon; enamel cup and plate.

The scouts are under discipline during the whole camp but the regular scout activities will provide them with the usual good time in the most healthful and approved fashion.

Try and Imagine *This*
First, a long, cool Kaintucky-style mint julep in a frosty glass and with a sprig of mint from the garden perched atop. And you're sitting on a wide verandah awatching the steamer lights down the river. The *only* lady is opposite and maybe the moon's ashining.
And then, presently, a soft-footed and deft-handed waiter brings in a dinner planned by an artist. A meal chosen with regard to the place and the time o' year. And then perhaps a dance or two and a quiet corner out on the lawn with the stars atwinkling down. And after a while a motor ride that's not too long and not too short—you know the kind.
"Where is it?" you ask? Why it's THE POINT—out by the Riverside.
Charlie Hannigs, that genial restaurateur from Tientsin side has taken over The Point. He's renovated it from bottom to top, employed a French Chef who is a Chef, and trained a staff of boys in a way of doing things that you wont find anywhere else in Shanghai.

"I TELL YOU ITS A BEAR!"
And The Point is quickly becoming *the* dinner Place of this Town. Charlie is an old Service man and he knows how to extend a welcome. Ask any Army or Navy man. Come and spend an evening by the Riverside—you'll come again. If it's a *party* you're bringing out better phone "East 4-9-4" first and tell Charlie whats wanted.

NANYANG CLASSES SUSPEND DUE TO STUDENTS STRIKE

Three Branches Of University Involved As Outcome Of Recent Warfare

Nanyang College of Siccawei, which is the Shanghai branch of the National University of Communications, in common with the other branches of the institution at Peking and Tangshan, has suspended classes by reason of a students' strike—another outcome of the late overthrow of Chang Tso-lin.

The strike at Nanyang follows a meeting held on Sunday night at which it was decided that unless the Ministry of Communications would grant demands made, a general walk-out would be ordered at all three branches of the University.

Yeh Kung-cho, former Minister of Communications, who had made himself President of the University and had named a directorate for the institution had to flee to Japan when Chang Tso-lin was overthrown and when the Vice-Minister of Communications, Loh Mang-hung came into power as acting minister he announced the dismissal of Yeh Kung-cho as President of the University, naming himself for the place and he then also dismissed the directorate together with a number of deans of departments of the University.

Protests from students and faculties of the three branches of the University followed. The removal from the presidency of Mr. Loh was demanded and it also was asked that the directorate and the various dismissed deans be reinstated. Recently Mr. Chang Chi, Director of Nanyang College, went to Peking to present demands of the school here with the result that he was summarily dismissed for 'failure to attend to his duties' and a successor was named. This removal of Mr. Chang precipitated action here and some 650 students refused to attend classes. The striking students both here and in the other branches of the University take the position that the post of President shall not be political in nature and it is demanded that Mr. Loh must be dismissed and the directorate along with the dismissed deans must be reinstated.

Rebuttal Offered In Widow's Action

Rebuttal arguments on behalf of the complainant in the suit brought by the widow of the late King Chun-kee against the Shanghai Life Insurance Company occupied yesterday's session before Judge Peter Grain in the British Supreme Court. The suit is for a commission of 2 1-2 percent on a contract for ten years on premiums paid.

In his rebuttal, Mr. R. G. Macdonald, who appeared for King's widow, sought to offset the claims of Mr. McLean that the operations of the Statute of Limitations had voided whatever claim King's estate may have had, and cited a number of cases.

U. S. To Ask Open Door In Oil Fields

(Rosta News Agency)

Moscow, May 30.—According to the Matin, the negotiations among the Allies concerning the distribution of Russian crude-oil concessions have concretely resulted in the drafting of a Franco-Belgian agreement for the protection of their rights in Caucasus.

The American official envoy at Riga, Mr. Bald, has stated that his government is going to insist on equal chances for all countries interested in Russian crude-oil.

JAPANESE ENVOY TELLS WU CHANG WILL BE IGNORED

Obata's Representative Visits Paotingfu On Friendly Mission

(By a Staff Correspondent)

Paotingfu, June 4.—An emissary of the Japanese Minister, Mr. Obata, has called at Paotingfu to initiate friendly relations of a personal nature with General Wu Pei-fu and Marshal Tsao Kun and to assure them that the Japanese Government has maintained, is maintaining and will continue to maintain a correct attitude toward Chinese internal strife. The emissary brought a photograph of Mr. Obata which he presented to General Wu, and received in return a photograph of the General.

The Japanese representative assured the Paoting authorities that General Chang's declaration of independence would receive no notice from Japan. Since General Chang Tso-lin, previous to the recent war, was the accredited head of the Three Eastern Provinces and his actions there were endorsed by the government at Peking, all commitments and arrangements affecting foreign interests made before the recent war must stand. But it is recognised that Chang Tso-lin's authority ended when he was dismissed by mandate of the Central Government, and no negotiation between him and any foreign subject dating after his dismissal will be given diplomatic support.

The unofficial visit of Mr. Obata's agent together with the Japanese declaration in regard to withdrawal of their Hankow garrison and the Legation's statement to newspaper men that Wu Pei-fu would be welcomed by Japanese interests in Manchuria with as much warmth as was General Chang Tso-lin, have created a most favorable impression here.

"China's period of international humiliation may be reckoned at an end," said a staff officer, commenting on the incident.

It was made plain to the Japanese delegate, however, that General Wu has no idea of extending his personal authority over Manchuria or placing men of his faction in control there. "The arbitrary placing of Chihli men in authority in Manchuria would be just as wrong as the recently frustrated attempt of Fengtien officials to dominate Chihli," said General Wu. "I believe there are many men in Manchuria with administrative ability to govern their own home provinces. I shall let affairs of Manchuria take their natural course although if the President ultimately finds it necessary to call upon me to bring about the pacification of the Three Eastern Provinces or to crush rebellion against his authority there, the services of myself and my troops will be at his disposal for the emergency."

General Wu has intimated that all matters affecting foreign interests must be for the future government and parliament to decide.

Chinese Child Is Bitten By Monkey

A Chinese child living at 528 Shanhaikuan Road was bitten by a pet monkey owned by Sing Vong-yang, 895 Medhurst Road, according to a report filed with the Bubbling Well police yesterday. The child is now under treatment at the Shantung Road Hospital and the monkey is being held at the observation kennels to determine whether it is afflicted with hydrophobia.

According to the story which the owner of the pet told the police, the child was tantalising the ape and it sprang at her. This, however, the child denied.

Currency Inflation and Public Debts
AN HISTORICAL SKETCH

THIS timely treatise by EDWIN R. A. SELIGMAN, Ph. D., L. L. D., McVickar Professor of Political Economy, Columbia University, has been published by **The Equitable Trust Company of New York**, with a prefatory note by President Alvin W. Krech.

It is a volume of unusual interest at this time because it offers a clear and concise historical background, enabling bankers, statesmen and business men to better understand the present economic situation with its perplexing problems of taxation, price fluctuation, currency instability and the dislocation of foreign exchanges.

A limited number of copies are available for distribution upon request.

Ichang Opens Club For Men Of Gunboats

(Reuter's Pacific Service)

Ichang, May 25.—The new Union Jack Club for the use of the men from the British gunboats was opened May 20 by Rear-Admiral C. McLachlan, Senior Officer on the Yangtze. Subscriptions for building the Club were started two or three years ago. Ground was secured adjoining the British Consulate, and construction was begun about six months ago. A general invitation to the opening was sent to all foreign residents in the port, and there was a large turn out on the occasion.

The Club is a beautiful building. The British Consul, Mr. Smith, who recently left the port on furlough, being relieved by Mr. Affleck from Newchwang, was a hearty supporter of the scheme and gave much time and thought to furthering it. He presented some handsome furniture to the Club when leaving.

This Doesn't Apply To The Baldheads

(Reuter Service)

Berlin, May 5.—Professors of Munich University, after arduous research in which they counted the hairs on the heads of an entire mixed class, discovered that the males had from 40,000 to 50,000 hairs, while the women had from 60,000 to 70,000.

Brussels To Have International City

(Reuter's Service)

Brussels, April 27.—The striking idea of building an "international city" at the gates of Brussels which was first proposed to King Albert of the Belgians in 1913 has been revived and it is now proposed to erect the city and inaugurate it at the same time as the Brussels International Exposition in 1930.

It is intended that the international city shall be a permanent institution where every country will have a building in which it will display not only its manufactures and products but examples of its art and records of its social progress.

Germany Prospers, Says Northcliffe

(Reuter's Service)

London, June 5.—As the result of an extensive tour of the Rhineland, Lord Northcliffe expresses the opinion that prosperity in Germany equals that in any other country in the world. He did not meet a single beggar in Berlin.

"The Three Musketeers"
Here is presented to you the greatest action picture ever made—a marvelous, magnificent photoplay that is torrent of power without a single dull moment throughout its entire course. Never before in film history has there been such a gloriously entertaining blend of humor and pathos, of love and jealousy, of happiness and sorrow, because never has there been a story comparable in scope and in appeal to "The Three Musketeers."

June 6, 1922

Spot and forward bar silver in London were each down ⅜d. since Friday last.

The New York price is now 71⅜ cents, and the London-New York cross rate is 450¼.

Our official rates this morning were unchanged from those ruling on Friday last, but as the market was weak at the opening, the Sterling T. T. rate was subsequently dropped to 3-5½, the Gold Dollar rate to 76½, the Yen rate raised to 61¾, and the other rates changed in proportion.

The market, at one time in the course of the morning, was very weak indeed, with speculators buying and banks disinclined to sell at almost any rate.

The lowest at which business in Sterling was done was 3-5¼ for July and August, and in Gold Dollars at 77½ for the same deliveries.

In the afternoon, however, the market steadied up, speculators who heretofore had been buyers being inclined to sell. At the close there were sellers of Sterling at 3-5⅝ for June-July and of Gold dollars at 11¾ for the same deliveries.

India and China sold silver in London on Friday, and Saturday and the market there, as well as in York, is reported as easy.

Noted Scientist Is Jailed In London

(China Press Service)

London, June 4.—Mr. Lorenz Dow Covington, a well known explorer and lecturer, member of the Royal Geographical Society of England, and a former member of the staff of Sir Robert Hart in the Chinese Customs Service at Canton, has been sentenced to the penitentiary for having indecent pictures in his possession.

In passing sentence Justice Herbert of the Special Sessions court made the comment that Covington was a Dr. Jekyll and Mr. Hyde, a man with a dual personality, one, low and degenerate, the other of high intellectual gifts. The complaint was made by Mr. John S. Sumner of the Society for the Suppression of Vice who obtained information that Covington, now a special lecturer for the Department of Education, was selling the indecent pictures.

Covington was considered an authority of Egyptology. He conducted one expedition to the Sahara Desert. He was proposed for membership in the Royal Geographical Society by Mr. Ernest Shackleton. At one time he was engaged to the Baroness Lilly von der Goltz, but the engagement was broken.

Americans To Begin Mining In Siberia

(Reuter's Pacific Service)

Moscow, April 25.—Machinery is en route and preparations are in full swing to begin mining operation in May on the property of the first American concession in Soviet Russia in the asbestos fields, 40 miles Northwest of Ekaterinburg in the Ural Mountains.

At the start 1,000 workmen are to be employed. With one or two exceptions, all of the personnel will be Russians. The mine has been worked for a number of years.

The concession is for a 20 year period during which time 10 percent of the output will go to the Government and at the expiration of the concession the property reverts to the Government.

U. S.-China Trade Returns Show Gain

(Chung Mei Service)

Peking, June 3.—Advances of $2,100,000 gold in imports from China to the United States and $1,900,000 gold in exports from the United States to China are shown by the reports sent out by radio by the Bureau of Foreign and Domestic Commerce in Washington for the month of April as over the returns for February. The March returns have not yet been received. Imports from China to the United States total gold $10,400,000 for April, while the exports total gold $9,300,000.

With regard to general business conditions it is stated that freight rates in the United States have been lowered 10 percent and railroad wages have been cut 12 percent, both effective July 1, 1922. Steel production is increasing, as are the prices of raw materials, while the prices of manufactured goods are decreasing.

"Quality Sells, because it Tells"

Yes, there is no doubt about that, and we have recognised it from the first, making "quality" our principal aim. Nothing will do us but the best, irrespective of expense. No amount of advertising, pushing, etc., will help us, if the quality of our products is not of the best, it would simply mean so much money wasted. And in nothing is "quality more telling with the public than with the articles they consume, such as Aerated beverages. Our reward has been the enormously increased demand for our

Non-Aggression Pact And Japan

ONE of the failures of the Genoa Conference may turn out to be the Non-Aggression Pact. It will be remembered that the original intention and purpose of the proposed pact was to secure an effective all-round treaty that would limit the increase of armaments in Europe, particularly land armaments, for a period of ten years, on the same sort of basis as was taken at Washington for the limitation of naval armaments, and to create machinery by which it would be possible to secure the peace of Europe for a decade.

But at Genoa, Japan insisted upon the exclusion of the Far East from the Non-Aggression Pact, and France took sides with Japan, which nation since has persisted in this reservation. She first brought forward the matter at the meeting of the Political Sub-Committee on May 17, but Mr. Lloyd George tried to bring the Japanese to reason by pointing out the suspicion of themselves which the Japanese would create if they persisted in the exclusion of the Far Eastern Republic from the scope of the Pact.

The Japanese Delegate, as usual, denied the existence of aggressive designs on the part of Japan, and in spite of his protests a proposal was adopted to extend the principle of non-aggression to the Asiatic frontiers of the contracting states; but Japan declines to accept the resolution as it stands. Exactly what her position with respect to the resolution technically is, it would be difficult to say; but this much is clear, that the very fact that she asked for the exclusion of the Far Eastern Republic from the scope of the Non-Aggression Pact is a proof that she had meditated aggression on the F.E.R.

It is idle to reply that she only wanted to be free to act in case of aggression on herself, for such action on her part would not be aggression but simple self-defence and is not contemplated under the Non-Aggression Pact. Moreover, had Japan consented to the inclusion of the Far Eastern Republic in the Non-Aggression Pact it would have been tantamount to a temporary recognition of the mandate given to Soviet Russia by her affiliated republics to act for them at Genoa, and thereby the Far Eastern Republic would have been bound by the Non-Aggression Pact as much as would Japan.

As it is, both the Far Eastern Republic and Japan are excluded from the scope of the Pact, but the exclusion was effected at the instance of Japan, and all the world knows where lies the responsibility for any breach of the peace that occurs. Japan, it is clear from this and other indications, is determined on a new offensive against the Far Eastern Republic, and it will greatly assist the world to judge of the rights and wrongs of the matter to know, and to be frequently reminded, that it was Japan who desired a free hand in the Far East if she thought fit.

The Question Of Animal Intelligence

BY GARRETT P. SERVISS
(Eminent Astronomer And Authority On Subjects of Scientific Interest)

"You speak of the intelligence of the spider. Understanding and reasoning go hand in hand with intelligence; there is no intelligence without reasoning or understanding, hence it can be applied to men. How do you apply it to the spider? So is the bee and the ant, you will say. Would you not think that their intelligence is simply 'instinct,' peculiar to their species for self-preservation?—S. S. E."

I see no reason for denying intelligence to animals ranking below man in the scale. Both the lower animals and the human species possess what are called instincts, which are said to act spontaneously without the aid of reasoning. No animal, indeed, possesses a greater number of instincts than man. But if the distinction between instinct and intelligence is to be based on the employment of conscious reasoning, I do not think that the possession of intelligence can be denied to the lower animals, because I believe that many of them do exercise a power of reasoning, i.e., of drawing conclusions from observation.

Natural history books are full of instances of what I should call exhibitions of intelligence by dogs, cats, elephants, horses and many other creatures much below these in organisation. It is true that some naturalists insist that all of the apparently intentional and reasoned acts of such humble creatures are merely manifestations of instinct, or unconscious responses to external stimuli, but all naturalists are not of that opinion. And the sole fact of this division of opinion suffices to show that the question must remain an open one.

In the sciences popularly grouped under the name of "natural history" you cannot find the same solid bases for positive conclusions as those which exist in the mathematical field. Wherever mathematics can be applied you have certain established and universally recognised axioms and unvarying methods which all use alike, and armed with them one is in a position to reach conclusions and to make affirmations that cannot be successfully contested; but it is not so with regard to questions concerning the conduct of animals.

There two observers with the same phenomena before them may arrive at precisely opposed conclusions without either being able to appeal to established principles, or laws that are capable of affording an unquestionable demonstration.

It will not do to ascribe an action performed by an animal to mere instinct because it was evidently done for self-preservation. We should be shutting ourselves out of the realm of reasoned conduct if we pushed that doctrine to its limit. Take some concrete examples: When that excellent naturalist, observer and reporter, Thomas Belt, was superintending a gold mine, and in his leisure hours studying nature, in Nicaragua, he made some fascinating studies of the conduct of columns of marching ants of the genus Eciton. His own words are best:

"I once saw a wide column trying to pass along a crumbling, nearly perpendicular slope. They would have got very slowly over it, and many of them would have fallen, but a number having secured their hold, and reaching to each other, remained stationary and over them the main column passed.

"Another time they were crossing a watercourse along a small branch, not thicker that a goose-quill. They widened this natural bridge to three times its width by a number of ants clinging to it and to each other on each side, over which the column passed three or four deep. Except for this expedient they would have had to pass over in single file, and treble the time would have been consumed."

Mr. Belt adds: "Can it not be contended that such insects are able to determine by reasoning powers which is the best way of doing a thing, and that their actions are guided by thought and reflection? This view is much strengthened by the fact that the cerebral ganglia in ants are more developed than in any other insect."

With precise reference to the intelligence of spiders, I find among Mr. Belt's records an account of the terrible panics caused by the advance of armies of ants through the forest, all sorts of insects fleeing wildly before them, while the ants chased their victims to the tops of long grasses and bushes and cornered them there. But a spider sometimes escaped by running out to the end of a branch and suspending itself from a single thread of silk, between the enemies above and the enemies below!

There is exhibited an extraordinary repugnance by many people against admitting that any living being on this earth has been furnished with anything in the slightest degree resembling the peculiar gifts that assure to our race its immensely superior status. This seems to me a petty jealousy. When we dissect the motives of the human heart do we discover any reason why man should be the exclusive possessor of sparks of Divine light?

D. W. Griffith Interviewed

BY DAMON RUNYON

On Board the Aquitania April, 1922.

David Wark Griffith, the Jack Dempsey of the moving picture directors and producers, dropped in on us this evening in his dinner jacket.

His dinner jacket has an odd cut, being double-breasted, with very wide lapels.

Mr. Griffith has thin features, almost sharp, bright eyes, and a rather prominent nose. He wears his face closely scraped. Off hand you might take him for a minister, or a card shark, many of whom try to make themselves look like ministers. You know at once that he is somebody out of the ordinary.

All's fish that comes to our cabin. We immediately began slapping questions at Mr. Griffith.

We learned that he began life in Kentucky, working in a newspaper office, setting type, running presses, gathering news. He was an actor for a time. We judged from the way Mr. Griffith said it that while he didn't like to mention the fact broadly, he was a good actor.

He broke into the movie picture game as a scenario writer.

"I got $15 apiece for my scenarios," said Mr. Griffith. "The producers thought I was stealing their money, at that."

"What do you think is the best picture you ever produced?" we asked, as Mr. Griffitth seemed to be meditating dourly over that fifteen dollar period of his career.

"'The Birth of a Nation,'" he said, promptly. "I like my last picture, 'Two Orphans,' but I wasn't able to get the feeling into it that I did in 'The Birth of a Nation.' The detail in producing a big picture is almost unbelievable. I rehearsed Schildkraut over one hundred times in one bit that didn't take much over five seconds on the screen, and photographed him thirty-five times in that bit before I let it go."

"What's the future of the movies?" we asked. "Will they ever be able to synchronize them? Will they ever be able to have the speaking voice in the pictures?"

You see, we were putting the questions to him like a regular interviewer.

"The pictures will never need the voice," replied Mr. Griffith. "The story will always be able to hold the spectator, if it is a good story. That has been demonstrated time and again. It has been proved that a good picture of a play will outdraw that play done on the speaking stage four or five times to one. As for the future of the movies—well, who can tell that?"

"Who is the best movie picture actor in the world?" was our next question.

"————," said Mr. Griffith.

"And the best movie picture actress?"

"————," said Mr. Griffith.

Oh, yes, he told us the names, but it is not for us to put them in cold type and hurt some one's feelings. Every moving picture actor and actress will know intuitively who Mr. Griffith named. They will know that he must have named 'em if he stuck to the facts.

He paid a tremendous compliment to Charley Chaplin.

"A great artist," said Mr. Griffith. "A very great artist. The finest comedian the screen has ever had. He is an artist to his finger tips.

"You know," Mr. Griffith continued, "I would like to do comedies more than anything else. It is more fun. But they won't let me do comedies, although I started out with them. What's that you've been reading there?"

He pointed at a copy of Francois Villon's poems lying on our bed. Then he asked, apropos, as the novelist says, of nothing:

"What is your idea of the best short story ever written in America?"

We evaded the question in the usual manner.

"Why, we don't know," we said. "What's your's?"

"Bret Harte's 'The Outcasts of Poker Flat,'" said Mr. Griffith.

Then he eased himself out of our cabin, looking much more like a minister than a card shark. Still, there are no ministers aboard the Aquitania this trip.

Radio And Health

BY HENRY S. WILLIAMS, M. D., LL. D.

It is distinctly startling to reflect that multitudes of radio messages—weather reports, lectures, concerts and what not—are passing directly through our homes and even through our bodies, in every direction, all the time.

As you sit at the dinner table tonight electromagnetic or radio waves are hurtling not merely by you, but actually through you, and carrying messages to the ears of some one, perhaps miles away, who is listening with a radio receiving telephone.

Not the least strange thing about these radio waves is that they directly influence no one of our senses. We cannot see or hear or smell or taste or feel them—unless a sixth sense is provided us by the radio receiving telephone.

Radio waves from the broadcasting station in Newark, for example, or from the farthest side of the world may and do rush through our homes, utterly disregarding the walls, and even through our bodies, with no more apparent effect than is produced by the earth's magnetism.

But the question naturally arises as to whether the ether waves that dash through our bodies do not in some way affect us, even though we cannot see or hear or feel them. May we not all be influenced, whether or no, by the passing through our bodies of the electromagnetic waves with which space is now vibrant, even though we are quite unconscious of their presence?

The only inkling as to what the answer may be—and it is at best merely a vague suggestion—is furnished by the experience of the physician who uses electricity therapeutically. The high-frequency current that he employs is precisely the same in character as that which the radio operator uses. The patient thus treated may hold in his hand an electric light bulb which is lighted by the current that passes through his body; yet he feels no sensation. A vacuum tube held many feet away from the patient may glow with light through an electromagnetic influence emanating from the patient's body. And still the patient feels nothing.

Now for the application. The patient who receives this high-frequency treatment, although quite unconscious of any sensation while his body thus gives storage and transit to the vibrating current, may receive very tangible and permanent benefits from such treatment. His blood pressure may be reduced; indeed, this is the newest treatment for high blood pressure. Metabolism, or condition of general nutrition, may also be definitely improved. It is plausibly claimed that bodily changes of such tangible character as an increase of red blood corpuscles may be thus effected. In a word, the influence of the high-frequency current is unequivocal, notwithstanding the fact that it may be used in such a way that it does not affect any of our senses—cannot be seen or felt or heard or smelled or tasted. Moreover, physicians who constantly use the high-frequency current and so are brought for hours together under electromagnetic influence report personal benefits.

We must not crowd analogies too far. But does not this experience in the consultation room suggest at least the possibility that the electromagnetic waves developed by the high-frequency current used in radio work may influence the human organism? If so, it is gratifying to be able to add that, so far as analogy carries at all, it justifies confidence that if radio waves do affect us, they affect us favorably.

Conceivably the broadcasting station which gives us instruction and entertainment by ear may ultimately come to be regarded as, in some infinitesimal degree, a purveyor of public health as well. Stated in that bald way, the thing sounds fantastic. But things that sound fantastic are not necessarily untrue; else there would be no such thing as practical radio today.

How Civilisation Dulls Senses

BY THE SPECTATOR

Dr. G. B. Shaddock, in a recent book upon the African pigmies and their habits, makes some incredible statements which, however, he declares to be entirely true.

Among these is the statement that the Wakamba tribe, who live eastward of the Nairobi, has an abnormal sense of hearing. He declares:

"They can speak to one another in ordinary conversational tones at a distance of 100 yards without difficulty."

It is well known that the American Indian can lay his ear to the ground and detect the coming of a man or horse at great distance.

A dog will hear sounds too slight for human ears to perceive.

These facts point to the generalisation that as civilisation advances, the faculties become dull.

When evolution produces a soul with reason and imagination she does so at the sacrifice of keenness in those powers by which we perceive the world.

In other words, as the spirit is developed the sensorium deteriorates.

General Smuts, speaking of the bushmen of Africa, refers to the extraordinary power of their sight.

"They eat carrion. They lie on their backs in the bush and watch the sky and their eyes are very keen. They see vultures that are out of sight of us. Vultures stay up very high. The airman that flew from Cape to Cairo flew ten thousand feet up and he told me the vultures were above him. The vultures stay in layers watching to see which of them will first sight carrion. And the bushman lies hidden in the bush and watches the volture.

"When a bird starts off, that pigmy jumps up and runs, and he runs like the devil, two hours, ten hours, all day, with his finger up, pointing to keep the flight of the bird, and at last he comes to the carrion and gets his meal. He will fight the vultures, but if the other beasts are there he must wait till they are done."

We are far, far superior to these bushmen, and yet we have lost their power of vision.

Take the sense of touch. Did you ever realise how very imperfect it is? Shut your eyes and try to tell the different objects in the room one from another. Try to tell two kinds of cloth apart, try to tell one person from another by merely taking a strand of the hair of each between your thumb and finger, pass your hand over a printed page and notice how, to the sense of touch, all of its marks have disappeared.

We determine shape, size and quality of all things so much by our eyes and ears that our sense of touch has slumped so that we can only tell hot and cold or rough and smooth.

How far inferior is our sense of smell to that of the lower orders of creation—to our ancestors in the animal world!

The antelope, if the wind is favorable, can smell the hunter farther than rifle shot. The dog knows people in the dark by the sense of smell. Our olfactory organs have so degenerated that we can only tell odors in their very broadest lines.

We can perceive the fetid smell of decayed objects, we can distinguish between a rose and a cabbage but we deliberately obscure the delicate aroma of each of our personalities by artificial perfumes which are clamorous enough to appeal to our weakened sense.

In the matter of taste also we have sadly gone back. We taste fewer and fewer of the finest differences in our food. The best part of a meal should be the enjoyment of the exquisite aroma that greet the sense of smell and the finer flavors that appeal to refined taste. But as a matter of fact we more and more tend to gulp our food, and look upon all sensitiveness to flavor as a sort of an affectation.

We allow children to eat quantities of sweetmeats and we ourselves devour all manner of coarse concoctions by drenching them with sweetness. We drown our strawberries, raspberries, pears watermelons and oatmeal with sugar, and so we are rapidly losing the delicacies of taste.

Civilisation is doubtless a good thing; but it has its price.

They Hold the Hose Dependably and Securely

All trimmings used in connection with

PARIS GARTERS

are rust-proof, insured against breakage or corrosion. They are small and neat in design, yet hold the hose with utmost security.

This is only one of the five famous reasons why discriminating men the world over insist on Paris Garters.

Do not accept an imitation—be sure to get the genuine. All good haberdashers sell Paris Garters.

China Mutual Life Insurance Co.

The twenty-fourth annual general meeting of the China Mutual Life Insurance Company was held yesterday afternoon at the head office of the company, 10 Canton Road.

After the secretary had read the notice convening the meeting, the chairman Mr. C. R. Burkill then read the directors and auditors certificate. In his annual chairman's address to the shareholders, Mr. Burkill said:

"The accounts having been in your hands for some time, I propose, with your sanction, to take them as read. I believe also you will be glad if I refrain from elaborating on the depression which is affecting the whole of the East, from India to Japan. You will principally be interested in hearing of the effect of this depression upon the working of the Company.

"One of the effects has been that the new business written this year is less than new business written last year, but under all the circumstances, I believe you will agree that our representatives in the field have done well to secure applications for over Tls. 2,600,000 and over £800,000.

"Our premium income this year is Tls. 837,000, as against Tls. 853,000 last year, and £226,000 as against £250,000 last year. Our income from interest, however, has shown an improvement in that, although there is a reduction in the Tael interest income of Tls. 12,400, there is an increase in the Gold interest income of £7,600.

"Our Gold claims show an increase of £14,000 against a decrease in our Silver claims of Tls. 26,000. Our expenses, taking for this purpose the total of the expenses and commissions together, show an increase of £10,000 in Gold and a decrease of Tls. 107,000 in Silver, which we consider to be a very satisfactory position. Our Sterling fund has increased by £74,000 and our Silver fund by Tls. 50,000.

"Turning to our investments, these have been carefully reviewed by your Directors, and you will be glad to hear that the position in this respect is extremely satisfactory and you will be very pleased to hear that the investment reserve fund is well in excess of the depreciation in the assets at the end of 1921, and to quote from the Economist in their article upon the accounts of another Insurance Company this is a pleasant fact to record after years of long drawnout shrinkage in investment values.

"As you are aware, the next valuation for the purpose of distribution of bonus will take place in 1924. Your Directors, however, have had an office valuation made for their information, and I have great pleasure in stating that the results show that we are amply justified in paying the bonuses during the present year at the rate declared last year.

"To sum up, your Directors feel very satisfied that the Company has come through a very bad year in such a satisfactory manner.

"I now beg to propose that the report and accounts as presented be passed. This is seconded by Mr. Welch, but before putting this resolution, I shall be glad to answer to the best of my ability any questions which you may care to ask."

The resolution, as proposed by Mr. C. R. Burkill and seconded by Mr. A. J. Welch, read:

That the Directors' report, together with the accounts and balance sheet for the year ended December 31, 1921, be and they are hereby accepted and passed.

This was passed as were the following resolutions: That Mr. A. W. Burkill be and he is hereby re-elected a Director of the Company. Proposed by Mr. A. J. Welch and seconded by Mr. R. G. MacDonald.

That Mr. R. G. MacDonald be and he is hereby re-elected a Director of the Company. Proposed by Mr. C. R. Burkill and seconded by Mr. A. J. Welch.

That Messrs. G. H. & N. Thomson be and they are hereby elected auditors of the Company for the year ending 31st Dec. 1922 at a fee of Tls. 2,500. Proposed by Dr. G. E. Goode and seconded by Mr. C. J. L. Stewart.

All Shanghai Waits for
DOUGLAS FAIRBANKS
in Alexandre Dumas'
"The Three Musketeers"
The word has gone forth throughout the length and breadth of Shanghai, that this stupendous film version of an imperishably famous story, is not only genuinely worthy of its announcements but ACTUALLY surpasses them. Very soon, you shall see for yourself the real versatility of Douglas Fairbanks. Agile? Supple? Athletic? Daring? Yes—but far more. For the first time you will appreciate the ability of this uniquely celebrated star to probe the deepest emotional depths in your heart—to bring a tear as well as a laugh. You'll like Fairbanks—more than ever!

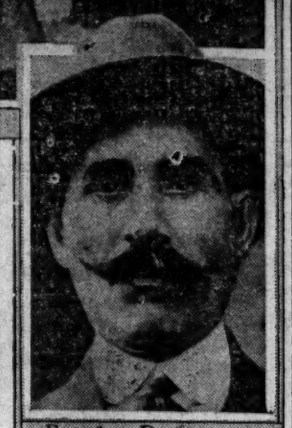
Bought Whole Family For One Dollar

Mrs. Kolczynska & children



Beyden Bannas

BEYDEN Bannas, of Detroit hearing that a friend was hard up and needed one dollar, purchased a wife, an eighteen-year-old boy, nine-year-old girl and a baby in order to help out. The eighteen-year-old boy, however, had been imbued with considerable Americanism and notified the police. Result: Bannas loses the family and his dollar, while Kolczynski, who made the sale, will have an excellent opportunity to convince a Federal deportation board that he doesn't want a return trip to Europe.

The Crowning Triumph of the Motion Picture!
DOUGLAS FAIRBANKS
in Alexandre Dumas'
"The Three Musketeers"
Those who love the films for their entertainment and educational value, will revel in the wonders of production art and acting talent that will be revealed to them in this amazing celluloid transcription that has been made from the printed page. Those who have been skeptical about the place of motion pictures among the arts, will have final and convincing proof that GREAT and FINE things can be done—and HAVE BEEN in this play.

UPPER RIVER STEAMERS CUT FREIGHT RATES

Fourteen Vessels Now Engaged In Yangtsze Traffic

(Reuter's Pacific Service)

Ichang, (by mail).—The Ichang-Chungking service was resumed six weeks ago, and there are now 14 steamers engaged in general trade, besides two belonging to the oil companies. Owing to the large number of steamers running a rate war is in progress. One of the principal lines of cargo is cotton yarn, and freight charges used to be as much as Tls. 30 or Tls. 35 per ball but today steamers are offering to carry it at Tls. 4.

Last year and even at the beginning of this season the rates for Chinese passengers were $90 first class, $60 second class and $30 third class, but these have now been reduced to $30, $20 and $10 respectively.

The time when a steamer could pay for itself in one or two seasons seems to have departed and it is hoped as a result that there will be a change for the better in the cost of living of residents in the far West of China.

The Alice Dollar has not made an appearance at Chungking this season. It is said that she is being held back while a dispute is being settled through diplomatic channels. She was charged with arriving at Ichang with a large cargo of opium last year, and was heavily fined. The owners now dispute this decision and the matter is under discussion.

The Customs authorities recently seized two or three sampans belonging to a semi-official department for the suppression of the opium traffic. They have been cut in two, and are now being exhibited in that condition on the bund. It is stated that they went out to search a boat, but, not finding any opium on it, they robbed a Chinese woman of $100. The men have been handed to the authorities to be dealt with.

A sad accident occurred recently, when a man fell overboard from the U. S. S. Elcano and was drowned. His body has not yet been found.

The Woodcock and Villalobos left for down river May 31, leaving the Elcano, Bee and a Japanese gunboat in port.

Things are very quiet here just now, and there seems to be no prospect at present of any disturbance.
